2nd Congress on Applied Synthetic Biology in Europe. 25-27 November 2013 - Malaga - Spain

Second symposium on industrial applications of synthetic biotechnology

The conference will cover all aspects including plant synthetic biology, but inevitably with a strong emphasis on microbial synthetic biology. This conference is an unique opportunity to listen, meet and talk with experts from various fields of synthetic biology.

Groups that have agreed to present their work at the meeting include:

Paola Branduardi

Università degli Studi di Milano-Bicocca,
Italy.

Nediljko Budisa

TU Berlin, Germany.

Manuel Canovas

Universidad de Murcia, Spain.

Marc Creus

Universität Basel, Switzerland.

Robert Edwards

The University of York, UK.

Pau Ferrer

UAB, Spain.

Anton Glieder

ACIB, Austria.

Louise Horsfall

University of Edinburgh, UK.

Melissa Koay

University of Twente, Netherlands.

Christer Larsson

Chalmers University of Technology,
Sweden.

Victor de Lorenzo

Centro Nacional de Biotecnología, Spain.

Juergen Mairhofer

FFG, Austria.

Sylvestre Marillonnet

Bayer HealthCare, Germany.

Marjan de Mey

Ghent University, Belgium.

Johnathan Napier

Rothamsted Research, UK.

Jens Nielsen

Chalmers University of Technology,
Sweden.

Danilo Porro

Università degli Studi di Milano-Bicocca,
Italy.

Cecilia Roque

Universidade Nova de Lisboa, Portugal.

Morten Sommer

DTU, Denmark.

Nick Turner

University of Manchester, UK.

Nick Wierckx

RWTH Aachen University, Germany.

Birgit Wiltschi

ACIB, Austria.

FEMS Offers Grants to European Students Wishing to Attend Conferences & Meetings

Young scientists wishing to apply for a Meetings Attendance Grant should first inform themselves of the regulations governing FEMS Meeting Attendance Grants. Complete applications should be received at FEMS Central Office on or before:

01 September, for attendance at meetings beginning between 1 October 2013 and 30 April 2014

New Biotechnology Special Issue: 7th Recombinant Protein Production - RPP7. Laupheim, Germany, March 2013

The “7th Conference on Recombinant Protein Production – A Comparative view on host physiology” was held in Laupheim (Germany) in March 2013. It focused on different aspects of analysis, engineering and control of cellular physiology for recombinant protein production with a focus on proteins that are difficult to produce. Today recombinant protein production is a standard technology in all areas of biotechnology as well as in basic life sciences.

The **EFB Regional Branch Office, Polish Academy of Sciences**, is co-organising the **5th** edition of the **Eurobiotech 2013 Congress**, which take place in Krakow, 8th-11th October, 2013.

The subject of the 5th Conference will be issues concerning “White” and “Green” biotechnology as well as legal matters connected with taking out a patent on biotechnological inventions.

7th International Conference on Environmental Engineering and Management - Integration ICEEM. 18 - 21 September 2013. Vienna - Austria.

7TH INTERNATIONAL CONFERENCE ON
ENVIRONMENTAL ENGINEERING AND MANAGEMENT
Integration Challenges for Sustainability

The **EFB Section on Environmental Biotechnology** is promoting **ICEEM**. This ICEEM edition seeks to bring together researchers, practitioners and specialists in various environmental fields, with a strong focus on integrating cutting-edge environmental technologies with efficient management practices, contributing thus to a sustainable future.

European Symposium of Biopolymers- ESBP 2013

EFB Section on Environmental Biotechnology, is co-organising the European Symposium of Biopolymers - **ESBP 2013** on Lisbon, Portugal. SBP is the most important European conference on biopolymers, an area where the significant R&D investment made in recent years is leading to significant advances in new

products and applications, contributing substantially towards the sustainability of the polymer industry.
