

FEBS Science and Society Committee

Sunday, June 27th 13.00-15.30

Lecture hall X

"Biofuels are more than fuels"

- Given times are approximate

13.00.- 13.40. Prof. B. Friedrich:
"Nature´s way to exploit dihydrogen as an alternative fuel"

13.45.- 14.25. Prof. F. Armstrong:
"A chemist´s view of the challenges for biohydrogen"

14.30-14.45. and 15.30-15.40. Prof. U. Pick:
*"Accumulation of triglycerides in green algae:
a potential for biodiesel"*

14.50.-15.05. Prof. S.C. Zeeman:
*"Understanding starch biosynthesis in plants:
the potential to improve raw materials for biofuel
production"*

15.10.-15.25. Prof. M. Van Montagu:
"A brief discussion on EtOH production"

15.25. -16.00. General discussion

Chaired by Prof. G. Semenza, Chairman of the FEBS Science and Society Committee
